Matheson Stud
performance horses

WHAT’S ON OFFER?

A 40% share of Matheson Giselle is now for sale for £15,000/€17,000. The rider will maintain his 30% share and the breeder her 30% share. The rider will continue to provide his training services under his existing Rider Services Agreement. The horse will remain in Germany at the rider’s professional training yard. No further payments will be required until Giselle commences her competition career in March 2018. After that time, costs will be shared proportionally. The breeder retains all breeding rights and will pay for any future embryo transfer programmes. The horse will be insured for her full value.

WILL MATTHEW

Committed and hard working Australian young rider from Perth now based in Germany, Will is climbing his way to the very top of international dressage. In partnership with Matheson Stud, Will commences Matheson Giselle’s competition career in early 2018. We are now looking for another partner to campaign this beautiful performance bred horse.

Will is located in the German dressage heartland of **Tonisvorst** with excellent training and facilities at his professional rider yard.

He has worked with **McLean Reitsport** and now working with a professional training yard in Holland to further develop his experience.

Australian FEI Under 25 dressage rider

“We had been looking for an opportunity to work together for several years. Now Giselle is under saddle, we are looking forward to commencing our competition career to climb the ranks of top class dressage performance.”

Giselle is preparing for the National Young Horse Championship classes. We aim to achieve qualifying scores for the 2019 Five Year Old Young Horse World Championships.

MATHESON GISELLE

Giselle is bred for top class Olympic discipline sport. Her dam State Premium Hanoverian Daylight competed up to Novice level before retiring to broodmare duties. A gorgeous type of mare exhibiting all the characteristics of her Don Frederico sire line, Daylight has delivered lovely correct foals. Giselle’s sire Hanoverian sire Goetter Funke exhibits the versatility of the Hanoverian breeding lines with excellent dressage provenance combined with stellar jumping lines.

Giselle is a charming young mare. Her temperament and work ethic reflect her breeding and her steady early education. She moves correctly and expressively with a beautiful head and limbs. She is still growing and is, under Will’s ongoing training, developing into a lovely model of a dressage competitor.

In early 2018 a competition programme will be agreed after the 2018 winter of small indoor shows, some showjumping and strengthening. An embryo transfer programme will take place in 2018 and subsequent years to maintain the strong breeding lines.

MATHESON STUD

Matheson Stud’s foundation mares reflect a slow process of finding stock with excellent bloodlines, performance capability and proven ability to breed top class foals for competing in eventing and dressage.

All the mares are sport horses, a mix of Warmbloods and Irish Sport Horse breeding, matched with the very best performance stallions. We spend hours researching top class sires that provide the best performance and most economic pricing.

We take calculated risks with using top quality stallions that are more modern in type than the mares to get athleticism, beauty and, most certainly, trainable temperaments. With a professional approach to breeding for the interested amateur and ambitious professional, we focus on methodical training for the best results from day one.

RESULTS
